

Measure LIGHT

*Light is an Element of Life,
a stimulus and a source of pleasure.*

*Daylight is free and Electric Light is relatively inexpensive,
but ought to be respected
and carefully harnessed for our benefit.
The discipline of Lighting*

The measurement of Light, accurately, is critical in many application areas such as Automotive Lighting, Street Lighting, Indoor & Outdoor Lighting. That's why, at Lumetronics, we have made it our business to create some of the finest Photometric tools since the last 20 years. A fact endorsed by our long list of satisfied customers all across the world.

Our products include the complete range of Photometric equipment such as Gonio Photometers, Integrating Spheres, Kelvin Holders & Digital Lux Meters. LUMETRON MH-4 series Kelvin Holders have become the de-facto standards for all Photometric Test Laboratories in India including the NPL.

Our leadership in Photometry Tools is now strengthened by our alliance with **RADIANT IMAGING, Inc., USA**, for distribution of their range of high speed, CCD based Video Photometry equipment.

Visit us, & find out why you are never in the dark when measuring light with LUMETRONICS
